

KB10001: %1 is not a valid Win32 application

Exception when opening ASP.NET web site on x64 PC

SYMPTOMS

When opening ASP.NET web application internal server error 500 appears: "%1 is not a valid Win32 application."

CAUSE

IIS is in 32bit mode, while x64 .NET framework is registered.

SOLUTION

Change IIS to x64 mode and register x64 ASP.NET again:

1. Run

```
cscript %SYSTEMDRIVE%\inetpub\adminscripts\adsutil.vbs SET W3SVC/AppPools/Enable32bitAppOnWin64 0
```

2. Run

```
%SYSTEMROOT%\Microsoft.NET\Framework64\v2.0.50727\aspnet_regiis.exe -i
```
